REPORT FORMAT AND EVALUATION

1. Outline

1. Abstract (100 words)
2. Problem Definition and Original Contribution
3. Methodology and Design
4. Simulink/Matlab Implementation
5. Results and Performance Metrics
6. Statement of AI Usage

2. Evaluation Criteria Table

Evaluation Criterion	Weight	Description
System Functionality	30%	Validation and successful operation within the Matlab/Simulink environment.
Originality	25%	Transparency regarding the usage of Artificial Intelligence tools (AI Usage Statement).
Technical Analysis	20%	Inclusion and correctness of the required block diagrams and flowcharts.
Report Quality	15%	Adherence to academic writing standards, proper formatting, and correct referencing/citations.
Timely Submission	10%	Submission by the specified deadline (automatic penalty for late delivery).

3. Points To Consider

1. Code comment lines should be detailed (in English/Turkish).
2. Variable naming should be meaningful.
3. Each function should include input/output descriptions.

4. Artificial Intelligence Declaration Form (Mandatory)

AI TOOLS USED

[ ] ChatGPT/GPT-4
[ ] DeepSeek
[ ] GitHub Copilot
[ ] Other: _____

PURPOSE OF USE

[ ] Code optimization
[ ] Debugging
[ ] Report writing
[ ] Mathematical calculations

5. My Original Contribution

To be clearly stated - min. 100 words

6. Mandatory Format

ASSIGNMENT_GROUPNO_STUDENTNAME_STUDENTNO/
