TYPES OF CHANGE…

- Get on the balcony & identify (frame key Qs & issues) the adaptive challenge!

- **Adaptation**, builds on the prior strategy rather than fundamental change; change in product design, methods of production, launch of new products
- **Reconstruction (turnaround),** restructuring- changes in organizational structure-cost structure, acquisition, reinvestment, has the aim of fast recovery
- **Revolution,** rapid & major strategic and cultural change (involve strategic direction, top mngt change, culture change)
- **Evolution,** gradual transformation

Challenges	Symptoms	Potential solutions
Focusing on priorities	• The business is unable to define priorities • People spend most of their time for fire fighting	• Establish a clear, practical **vision**
Managing performance	• Wide variation in performance • People fail to meet commitments • Managers fail to resolve performance problems	• Review rewards system; do they encourage the right behavior? • Lead by example
Innovating	• The emphasis is on stability, no on development • The focus is internal	• Find and reward ideas for improvement • Encourage a questioning approach • Challenge assumptions • Establish an open, blame-free environment so that people will take greater risks
Team working	• Competitiveness is directed in • The business is working in 'silos' w managers failing to cooperate	• Look for what people think & say, and listen people • Establish regular opportunities for colleagues to meet informally • Allow time at the meeting for an open exchange of views • Confront poor performance
Cynicism	• Lack of focus on customers • The company is inflexible and fails to respond customers' needs	• Set goals that are challenging and SMART • Challenge and remove the sources of cynicism • Encourage commitment and urgency
