EE2001 Lab Information:

Laboratory Sessions:

- Groups of 4 or 5 people, randomly determined and will not change throughout the semester.

- Each group should bring together their experiment sheet with them.

- After the experiment, each group should prepare one report and submit it **online BY UPLOADING IT TO AN ONLINE FILE SHARING FOLDER THE COURSE INSTRUCTOR OPENED FOR THEM in 7 days (PLEASE DON'T TRY TO SEND BY MAIL)**.

- Every group member **have to add their names, surnames, signatures and state their individual contributions** to the experiment report. The reports are also the proof of your attendance to the experiment. No report submission, empty report submission or a report graded with 0 points means you are absent from that experiment.

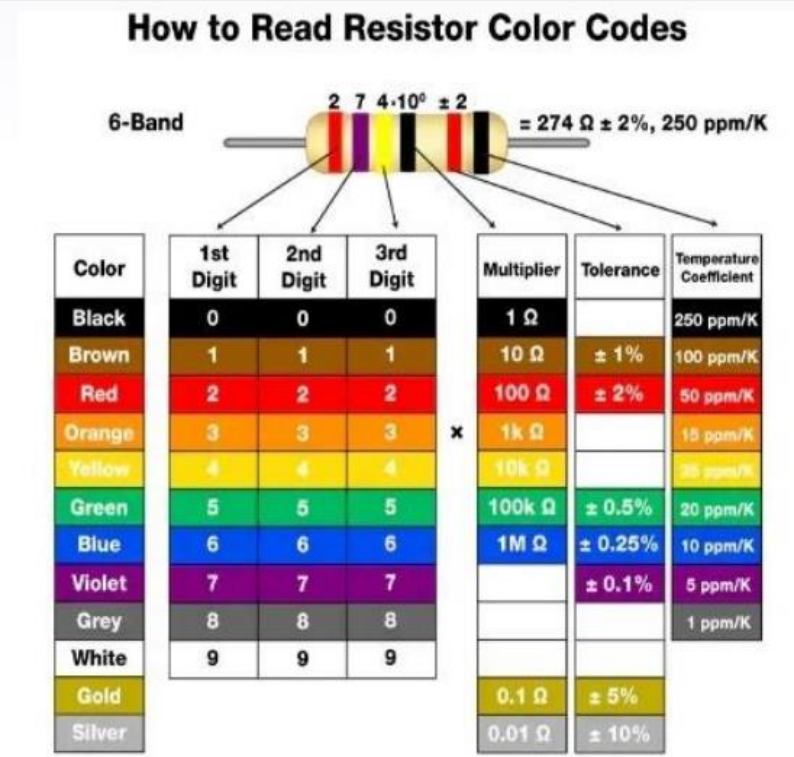

- After report submission, a confirmation mail should be received in 24 hours. If not, the group should remind the research assistant again about their submission until they receive a confirmation mail.

- Every late day (including weekends) of submission causes **-20 points reduction from the overall grade**.
